

Advertisements sent to this office for publication hereafter, must be accompanied by the cash to insure insertion.

AN APPRENTICE to the Printing Business wanted immediately at this office. A boy 15 to 17 years of age, of suitable education, and who would be willing to work long enough to acquire a knowledge of the trade, will find a favorable opportunity.

A stranger called into this office on Saturday last, while the men were working on the papers, purchased a Sentinel, and on paying for it laid a few dollars on the table before the papers. He can have the same by calling for it.

**The Grand Result.**  
We have now heard from every State, except California, which has doubtless gone for Pierce. The result is, Pierce has got 27 States, giving 244 electoral votes, and Scott 4 States, giving 42 electoral votes. Pierce's majority over Scott 212!! His majority on the popular vote is not less than 250,000!!! This is the greatest majority ever given in the country, and shows the strong hold Democracy is getting on the minds of the American people. Democracy is truly progressive. Kentucky and Tennessee, which were first reported for Pierce, have both gone for Scott, by small majorities.

We give below tables showing how the states voted. We commence with

**The Democratic Column.**

Maine	8

Pierce's vote, 254

This is a pretty respectable column, and looks well in print. Now let us see how the Whig column looks—the column the papers used to tell us that Scott leads. Here it is—

**Scott's Leads the Column.**

Vermont	5
Massachusetts	13
Kentucky	12
Tennessee	12
Seaside's vote	12

Gen. Pierce at Home.

The result of the Presidential election in Concord, New Hampshire, may well be regarded, not only by Gen. Pierce, but by every Democrat in the Union, with peculiar pride. The report has gone abroad that the vote of Concord showed a Democratic loss. The following dispatch to the N. Y. Herald corrects this statement, which seems to have been taken from a telegraphic error.

A telegraphic dispatch, received in Concord from Concord, N. H., says that General Pierce's vote in that city was 912, in favor of 612, as previously reported by telegraph. It is a majority of 300 over General Scott, and a gain of 297 since last March, and the largest vote ever given to any man in that city.

So that instead of losing, Gen. Pierce has gained his neighbors and friends about the last Democratic vote, and has brought 12,000 votes. This, too, in a city of 10,000.

Gen. Scott at Home.—New Jersey, the residence of Gen. Scott, has for the first time in its history, given her electoral vote to a Democratic President. Mark the contrast!

**Vote of the 10th District—Official.**

We give below the official votes of all the counties in this Congressional District, for President and Governor. They are put up pretty well and show good round numbers.

PRESIDENT.	GOVERNOR.
Pierce, Scott, Hale.	Weight, Scott, Hale.
Allen 1061 1225 91	1801 963
De Kalb 789 201 164	681 263
Elbert 1343 1073 28	1271 873
Kennesaw 933 1043 96	913 1043
Lagrange 672 679 117	746 799
Noble 597 496 59	729 597
Whitely 553 437 99	550 462
Stauben 513 437 99	512 503
7639 5093 520	7251 5187
5955	5187

Pierce's maj 1622 Wright's maj 1767

The vote for whig electors in Lagrange was a regular—some only receiving 613 votes, some 677, and one 680.

The returns of the Congressional vote for this district, as published in our last column, contained some errors. We republish this week, corrected. Mr. Chamberlain's majority, it will be seen is 1,019.

**TENTH DISTRICT.**

Allen 1061 1225 91

De Kalb 789 201 164

Elbert 1343 1073 28

Kennesaw 933 1043 96

**CONCERT.**—The Fort Wayne Brass Band intend giving a Concert at the College Hall, on Monday evening week, and the 29th inst.—They are good performers, and will give us a fine evening's entertainment to those who favor them with their presence.

The Band have devoted considerable time and spent much money in their musical studies; they now seek by means of this Concert to raise a sum to purchase uniforms. We hope our citizens will liberally respond to the call.

**Peterson's Ladies' National Magazine** for December is already on our table. It is a superb number, richly embellished, and contains several interesting articles by the most celebrated American writers. We have always considered Peterson's one of the best magazines in the country, and it is the cheapest.

The new volume commencing with January is to be enlarged, and otherwise improved.—Terms \$2 00 per annum, or eight copies for \$10 00—only 1 25 each.

We are forming a club, so those who wish this beautiful periodical at the club price, can leave their names with us.

C. J. Peterson, Publisher, No. 90 Chesnut Street, Philadelphia.

**JOHN A. COLEMAN** makes a regular practice two or three times every year of filling his store with all kinds of good things—the best of groceries, preserves, pickles, fruits, nuts, confectioneries, &c. He has just completed one of these works of benevolence, and his shelves now display a tempting variety of luxuries, calculated to charm an anchorite, throw an epicure into ecstasies, and delight the hearts of all good housekeepers. We look upon such men as public benefactors, and if his labors are not duly appreciated and rewarded, the remark that republics are ungrateful will certainly appear to be but too well founded.

For the sake of humanity in general, and our friend Coleman in particular, we hope otherwise.

**OYSTERS.**—The lovers of this luxury will be pleased to learn that Mr. Fison has again made arrangements to keep a regular supply of the very finest and freshest oysters this season. His depot is at T. K. Buckenridge's corner of Calhoun and Perry streets. To those who bought of him last year, the mere announcement that he is again on hand will be sufficient. To others we would say, if you want to know how a first-rate oyster really tastes, go to Fison's depot and buy a can.

**Marine Disasters.**—The wind which had been blowing from the northeast for several days, changed to the west on Saturday night, blew with great force. Some damage has been done to the shipping caught out. The schooner Douseman, loaded with coal, is sunk in the harbor of Erie. The schooner R. B. Sneed, also loaded with coal, has gone to pieces at Barcelona. The barque Canada, with a cargo of coal for Chicago, soon after leaving Erie, was struck by the gale, and had her top-gallant-mast carried away. She ran for 114 port, which she made during the frenzied yesterday. A vessel painted black is reported ashore at Long Point. The steamers Michigan and Traveller, which left Saturday night, returning to port yesterday, the weather proving too heavy for them.

By a dispatch received this morning by the House Western Line, dated Erie, 8th, we learn that the barque Rochester, Capt. Myers, left Cleveland at 3 o'clock Saturday night, loaded with 600 tons coal for Messrs Marble & Champlin, Buffalo. When off Grand River she sprang a leak. Last one man overboard, about one o'clock Saturday morning. Was headed for the shore and struck about three o'clock near Walnut Creek. The Captain and his hand saved by swimming ashore. The balance of the crew were lost, nine in number. The U. S. steamer Michigan went to the rescue, but arrived too late. It is believed that she saved the mate who was clinging to the rigging. The bodies nearly all on the beach. Boat and cargo a total loss.

Erie, 8th, 10 o'clock A.M.  
U. S. steamer Michigan has returned, could not find any portion of the wreck of the Rochester, vessel gone to pieces, all but the Captain and boy. Vessel owned by F. W. Myers, of Buffalo. Insured forty-five hundred dollars.

Erie, Nov. 8.  
The propeller Samsun, from Menominee to Buffalo, spring a leak outside and broke her engine, and threw overboard five or six hundred barrels of flour consigned to Weed and Co., Buffalo. She is now lying at the dock, having been towed in by the U. S. steamer Michigan. They are pumping her and water nearly out.—*Buffalo Advertiser.*

**Steamboat Disaster.**—We learn from Ad. C. Kelley, Esq., that a large steamboat, supposed to be the Saint Louis, is lying on a reef, hard on, one and a fourth miles north-northeast of Kelley's Island. She ran on yesterday morning. She was out of her course, probably, in consequence of the storm, and not aware of the location of the reef. Her flags were flying at half mast as a signal of distress. The steamer was unable to render assistance, as she was compelled to come to Sandusky for repairs, and therefore did not go to her.

P. S.—Since the above, the Captain of the St. Louis arrived on our city in the propeller Cataract. We are unable to find the Captain, and the most we could learn is that St. Louis has filled with water and is in a very bad condition.

The St. Louis was loaded with cattle and hogs, and had 2000 barrels of flour in her hold.

The passengers were taken off by the Propeller Cataract.

Capt. Hopkins came to this city for assistance.—*Sand. Mirror.*

**RECAPITULATION.** Nov. 15.  
The propeller Projection known to have been on her passage from Cleveland to Buffalo during the severe gale of Thursday night and Friday last is no doubt a total wreck. Her two boats and part of her papers, together with a large quantity of her flour, have drifted ashore about five miles above Dunkirk.

**CLEVELAND, Nov. 15.**  
The steamer lying off Englin river, which has been taken for the Hendrick Hudson, and Empire State, plover to be the Michigan. She is about three miles from shore at anchor, drifting inland, both of her smoke pipes are gone, and her colors are at half mast. She has been in this critical position since Saturday last.

**BUFFALO, Nov. 11.**  
It is snowing fast here, and west wind blowing from.

We learn there was a large fire at Dunkirk last night, but as yet have been unable to learn the particulars.

The storm which raged yesterday and night before has somewhat abated.

The propeller Samsun is ashore, above the light-house. It is feared a total loss. She was owned by Mr. Strong, of Monroe, Mich., and loaded with 1200 bbls. flour, consigned to E. Weed & Co., and Holley & Johnson, all of which was insured.

The schooner E. K. Brice is ashore a few rods above the Samsun; she had no cargo on board. She left this port the evening previous. She is owned by W. Buckley of this city, and insured in the Buffalo Mutual Co. for \$6,000.

The schooner Flora ran her bow on the stone pier, but she sustained no serious injury.

The propeller Globe, bound for Cleveland, made the harbor of Dunkirk, where she was pounded badly. She will probably prove a total wreck.

We are informed that several vessels came in yesterday, report having seen bodies of men and articles of furniture, which are supposed to have come from off the steamer Atlantic, floating about in all directions. Part of the furniture was recognized as belonging to the Atlantic.

**New and Important Steam project to the Lake Ports.**  
A late number of the Liverpool Times says—A very useful project is being brought out under the designation of the "London, Liverpool, and North American Steam Ship Company." The object of the company is to establish an economical, expeditious, and direct steam communication for goods and passengers between London, Liverpool, the United States, and the British North American colonies. The steamers will leave London and Liverpool alternately for New York, throughout the year for Canada and Newfoundland from March 1st to October; and during the remainder of the year, in order that the communication with Canada may not be wholly interrupted, they will call at Portland, in the state of Maine, between which port and Montreal and Quebec a railway is now in course of construction. During the season it is contemplated that the Company's steamers shall run straight up to Quebec or Montreal, where they will be in communication with steamers plying to Lake Ontario, Erie, Huron, Michigan, and touching at all the boats on the route. When the line is established, it will probably cause a great diversion of sea lake traffic, which now passes in a great measure through the United States to the Atlantic sea-board. The Island of Newfoundland, so long deprived of the advantages of steam communication, will also be included in the route of the Company's steamers, and is therefore available for the associations which secure the bounty offered by the colonial legislature. The company is at present provisionally registered under the Joint Stock Companies Act, but a charter has been applied for, and will in all probability be readily secured, until which time only a deposit of 2s. per share is to be payable. The capital is fixed at £500,000 in £20 shares, and the committee include some of our most influential firms connected with both branches of the North American trade.—*[Trans. R. Tribune.]*

**Arrival of the Humbolt.**  
New York, Nov. 19th, 1852.  
Steamers Humbolt arrived yesterday from Europe, bringing 19 days later news from Europe. The Humbolt was detached at Harve on her regular day of sailing and left on Thursday and arrived at the 27th.

From Coves to Table Island she had heard winds &c.

She brings 115 passengers and 500 tons cargo.

Market for wheat and flour good demand at full prices. Prime Yellow corn sold at 32s. per quarter and generally sold higher.

Liverpool, Oct. 22.  
Demand for breadstuffs very great and prices still on the advance. 6,000 bbls. Baltic rye flour sold for the ship at 25s.

The aspect of trade through at England and all Europe has not been so favorable for some time.

France.—Capital tranquil. The London Chronicle mentions a rumor that another internal machine has been discovered at Roumbeau and that it was to have been despatched at the President's wife's wedding in the forest. Public attention was principally occupied with apprehending meeting of the Senate for the 24th of November.

It is said to avoid all discussion, but one single article would be submitted to the people to the effect that the French Empire should be hereditary in the direct line of the family of Louis Napoleon. In the event of the Emperor having no male issue, the crown should pass to his nearest male relative, and he should have the right naming his successor.

The Pope it is reported had declined to proceed to Paris to perform the act of coronation and consecrate the new Emperor.

TURKEY.—The Journal of Constantinople asserts that the new Ministry will follow the reforming system of Reschid Pacha.

**OFFICE OHIO AND PA. RAILROAD COMPANY.**  
Pittsburgh, Nov. 2nd, 1852.  
Receipts on the Ohio and Pennsylvania Railroad in October, 1852:

From passengers,	\$31,630 81
Freight,	13,914 83
mail service,	1,116 67

Receipts in October, \$41,741 31

Increases over September, \$7,229 41

Passengers carried in Oct., 27,161

In addition to the above amount of receipts in October on the road itself, the sum of \$9,805 05 was received for other companies, making the gross receipts \$51,546 36.

The net receipts for the month amount to about nine per cent per annum on the cost of the road in use.

S. W. ROBERTS, Chief Engineer and Superintendent.

The above most gratifying exhibit is another triumph for the Ohio and Pennsylvania Railroad. In every single month there is an increase amounting to thousands in its receipts. The increases during October, over September, amount almost to \$2,000 per week, and this without any increase of the number of miles worked. And over this, gratifying as it is, is only a faint indication of what the road will pay when it is finished, and when those roads which are to connect with it, running to Cincinnati, Chicago and St. Louis, are also finished.

We understand that the work between Wooster and Crestline, is in a great state of forwardness, and is urged onward with all the rapidity possible. It is expected that the cars will run to Crestline in all the month of January next.—*Pittsburgh Gazette.*

**Blowing from.** We learn there was a large fire at Dunkirk last night, but as yet have been unable to learn the particulars.

The storm which raged yesterday and night before has somewhat abated.

The propeller Samsun is ashore, above the light-house. It is feared a total loss. She was owned by Mr. Strong, of Monroe, Mich., and loaded with 1200 bbls. flour, consigned to E. Weed & Co., and Holley & Johnson, all of which was insured.

The schooner E. K. Brice is ashore a few rods above the Samsun; she had no cargo on board. She left this port the evening previous. She is owned by W. Buckley of this city, and insured in the Buffalo Mutual Co. for \$6,000.

**Prince's Melodeons,**  
The best and cheapest Musical Instrument in  
for SALE at MANUFACTURER'S PRICES  
Geo. A. PRINCE & CO'S celebrated Melodeons  
are most universally acknowledged to be the best  
instruments of the kind manufactured in this country.  
They are made of the finest materials, and are  
guaranteed to be perfect in every respect. They are  
also very durable, and will last for many years.  
They are sold at a very low price, and are  
very popular with the public. They are  
also very useful for teaching music, and  
for giving pleasure to the family. They are  
also very useful for giving pleasure to the  
family. They are also very useful for giving  
pleasure to the family. They are also very  
useful for giving pleasure to the family.

<sup>2</sup> They are sentenced never to get out of jail, are to lead a life of human misery, then are often released.
